

LAMPS

Smarter Cone

Traffic cone mounted on a rechargeable LED base. The cones talk to each other over radio and light up in sequence: the taper becomes an animated light arrow that directs motorists.

• Automatic synchronisation

• 17 h runtime

• Impact detection

• 71 cm cones

Sequential LED

17 h

Battery life

1,500 m

Visibility

50 m

Radio range

5

Flash patterns

FEATURES

- **Automatic synchronisation:** the cones flash in sequence to push traffic away — **5 flash patterns**.
- **Active visibility:** moving light takes over from reflective tape at night and in poor weather.
- **Impact detection:** the cone reports that it has been hit.
- **17 h** of flashing for an **8 h** charge; **110-240 V** and **12 V** vehicle chargers supplied.
- **2.4 GHz radio, Bluetooth control** and **GPS position** from a smartphone.

PACKAGING

PALLET	QUANTITY
Set of 6 cones	6 rechargeable cones + A.C. and D.C. chargers
Set of 12 cones	12 rechargeable cones + A.C. and D.C. chargers

OUR USAGE RECOMMENDATIONS

→ **Tapers, lane closures, night-time works:** cones laid out in the direction of travel.
